

Scalability & Future Plan

Date	15 March 2024
Team ID	6ab2a721eb88f5d3d45a509b
Project Name	Student Enrollment & Course Management System (SECMS)
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address
1	Limited to the current Salesforce setup	May need more configuration for a larger number of users.	Medium
2	Limited reporting features	Advanced reports may be needed for detailed analysis.	Medium
3	Internet connection is required	System cannot be accessed without internet.	Low

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Supports current users	Configure the system to support more users as needed.
2	Data Storage	Stores student, course and enrollment data	Expand data management as the number of records increases.
3	Performance	Suitable for current usage	Optimize flows and configurations for larger data loads.
4	Security	Salesforce security and user permissions	Add stronger access controls and security settings when required.

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
Phase 2	Advanced Reports and Dashboards	Future	Better analysis of student and enrollment data
Phase 3	Student Self-Service Features	Future	Allow students to access and manage their information
Phase 4	Mobile Access and Notifications	Future	Easier access and timely enrollment updates
