

Student Enrollment & Course Management System (SECMS)

Project Description:

The Student Enrollment & Course Management System (SECMS) is a Salesforce-based application designed to manage student details, courses, enrollments and instructor assignments in a centralized system.

The system helps administrators maintain student and course records, process student enrollments and manage instructor assignments. It also provides approval processes, reports and dashboards for better monitoring and management.

The application reduces manual record management and provides an organized way to handle academic enrollment activities.

Scenarios

Scenario 1: Student Management

An administrator can add and manage student information in the system. Student records can be viewed and updated whenever required.

Scenario 2: Course Management

An administrator can create and manage course details such as course information, duration and related details.

Scenario 3: Student Enrollment

A student can be registered for a selected course through the enrollment process. The enrollment record stores the required enrollment information.

Scenario 4: Enrollment Approval

The enrollment request can be reviewed and approved or rejected using the approval process.

Scenario 5: Reports and Dashboards

Administrators can use reports and dashboards to view enrollment and student-related information in an organized manner.

Technical Architecture:

STUDENT ENROLLMENT & COURSE MANAGEMENT SYSTEM

•

Pre-requisites:

The following knowledge/tools are useful for developing and accessing the project:

- Basic Salesforce knowledge
- Salesforce Developer Edition account
- Basic database concepts
- Knowledge of Salesforce Objects and Fields
- Understanding of Salesforce Flows
- Basic knowledge of Validation Rules
- Basic knowledge of Reports and Dashboards
- Internet connection and web browser

- Verify reports and dashboards.
- Check the complete application workflow.

Project Workflow:

Milestone 1: Salesforce Environment Setup

- Create/access the Salesforce Developer Edition account.
- Set up the project environment.
- Create the required Salesforce application.
- Configure the application navigation.

Milestone 2: Student Management

- Create the Student object.
- Add required student fields.
- Configure student records.
- Create the Students navigation tab.

Milestone 3: Course Management

- Create the Course object.
- Add required course fields.
- Configure course information.
- Create the Course navigation tab.

Milestone 4: Enrollment Management

- Create the Enrollment object.
- Establish required relationships.
- Add enrollment fields.
- Configure the enrollment process.

Milestone 5: Instructor Assignment and Approval

- Create and manage instructor information.
- Assign instructors to courses.
- Configure the enrollment approval process.
- Add required validation and automation.

Milestone 6: Reports and Dashboards

- Create required reports.
- Create dashboards.
- Display student and enrollment information.
- Verify the information shown in reports and dashboards.

Milestone 7: Testing and Final Verification

- Test student records.
- Test course records.
- Test enrollment process.
- Test approval process.
- Verify reports and dashboards.
- Check the complete application workflow.

Milestone 7: Testing and Final Verification

- Test student records.
- Test course records.
- Test enrollment process.
- Test approval process.
- Verify reports and dashboards.
- Check the complete application workflow.

6. Application Pages / Modules

Home

The Home page provides access to the main SECMS application modules.

Students

The Students section is used to create, view and manage student records.

The screenshot displays the 'Students' section of the SmartBridge platform. The browser address bar shows the URL: `orgfarm-4c63409b7d-dev-ed.develop.lightning.force.com/lightning/o/Student_c/list?filterName=__Recent`. The page header includes the 'Developer Edition' label and a search bar. The main navigation bar contains tabs for 'Student Enrollment & Cou...', 'Students', 'Course', 'Instructor Name', 'Enrollment', 'Reports', 'Dashboards', and 'Home'. The 'Students' tab is active, showing a 'Recently Viewed' section with 4 items. Below this, there is a table with columns for 'Student Name' and a dropdown menu. The table lists four students: 1. Amit Patel, 2. Sneha Reddy, 3. Priya Sharma, and 4. Rahul Kumar. Each row has a checkbox and a dropdown arrow. The bottom of the page shows the URL: `https://orgfarm-4c63409b7d-dev-ed.develop.lightning.force.com/lightning/o/Student_c/ho...`

Students

The Students section is used to create, view and manage student records.

The screenshot displays the 'Students' section of the SmartBridge platform. The browser address bar shows the URL: `orgfarm-4c63409b7d-dev-ed.develop.lightning.force.com/lightning/o/Student_c/list?filterName=__Recent`. The page header includes the 'Developer Edition' label and a search bar. The main navigation bar contains tabs for 'Student Enrollment & Cou...', 'Students', 'Course', 'Instructor Name', 'Enrollment', 'Reports', 'Dashboards', and 'Home'. The 'Students' tab is active, showing a 'Recently Viewed' section with 4 items. Below this, there is a table with the following data:

	Student Name	
1	Amit Patel	
2	Sneha Reddy	
3	Priya Sharma	
4	Rahul Kumar	

At the bottom of the page, the URL `https://orgfarm-4c63409b7d-dev-ed.develop.lightning.force.com/lightning/o/Student_c/ho...` is visible.

Course

The screenshot shows the Salesforce Lightning interface for managing courses. The browser address bar displays the URL: `orgfarm-4c63409b7d-dev-ed.develop.lightning.force.com/lightning/o/Course_c/list?filterName=__Recent`. The page header includes a search bar and navigation tabs: **Student Enrollment & Cou...**, **Students**, **Course** (selected), **Instructor Name**, **Enrollment**, **Reports**, **Dashboards**, and **Home**. The main content area is titled **Course** and **Recently Viewed**. It shows a list of 3 items, updated a few seconds ago. The list contains the following courses:

	☐ Course Name	
1	☐ Mechanical	⌵
2	☐ Electronics	⌵
3	☐ Computer Science	⌵

At the top right of the course list, there are buttons for **New**, **Import**, **Change Owner**, and **Assign Label**. Below these buttons are icons for various actions: a plus sign, a minus sign, a refresh icon, a search icon, a filter icon, and a table icon.

The Course section is used to manage available course information.

Course

The screenshot shows a web browser window with the SkillWallet interface. The browser's address bar displays the URL: `orgfarm-4c63409b7d-dev-ed.develop.lightning.force.com/lightning/o/Course_c/list?filterName=__Recent`. The interface includes a top navigation bar with a search bar and a menu with options: Student Enrollment & Cou..., Students, Course (selected), Instructor Name, Enrollment, Reports, Dashboards, and Home. Below the navigation bar, the 'Course' section is titled 'Recently Viewed' with a dropdown arrow and an information icon. To the right of this title are buttons for 'New', 'Import', 'Change Owner', and 'Assign Label'. Below these buttons is a table with three rows of course data. Each row has a checkbox, a course name, and a dropdown arrow. The courses listed are 'Mechanical', 'Electronics', and 'Computer Science'. The table is followed by a large, empty rectangular area.

	☐ Course Name	
1	☐ Mechanical	⌵
2	☐ Electronics	⌵
3	☐ Computer Science	⌵

The Course section is used to manage available course information.

	Instructor Name Name	
1	☐ Instructor B	
2	☐ Instructor C	
3	☐ Instructor A	

This section is used to manage instructor information and assignments.

Enrollment

The screenshot displays the SkillWallet web application interface. The top navigation bar includes a search bar and tabs for Students, Course, Instructor Name, Enrollment, Reports, Dashboards, and Home. The main content area shows the details for an enrollment record with ID ENR-001. The record is owned by Anitha A. and lists the following details:

Field	Value	Action
Enrollment Name	ENR-001	
Student	Amit Patel	Edit
Course	Computer Science	Edit
Instructor Name		Edit
Enrollment Date		Edit
Enrollment Status	Approved	Edit
Fees Paid	✓	Edit
Total Amount	\$5,000	Edit
Comments	true	Edit
Student c	Sneha Reddy	Edit
Course c	Electronics	Edit
Instructor c	Instructor B	Edit
Instructor User		Edit

The Enrollment section manages student course enrollment records and the approval process.

Reports

Reports provide organized information about the records stored in the system.

Dashboards

Dashboards provide a visual representation of important project information.

7. Testing

The main functions of the system were tested to verify that the application works correctly.

S.No	Function Tested	Status
1	Student Record Management	Passed
2	Course Management	Passed
3	Enrollment Management	Passed
4	Instructor Assignment	Passed
5	Enrollment Approval	Passed
6	Reports	Passed
7	Dashboards	Passed

8. Deployment / Access

Platform: Salesforce

Application: Student Enrollment & Course Management System (SECMS)

Hosted / Deployed URL:

<https://orgfarm-4c63409b7d-dev-ed.develop.lightning.force.com/lightning/page/home>

The application can be accessed through the Salesforce environment using the appropriate account credentials.

9. Conclusion

The Student Enrollment & Course Management System provides a centralized Salesforce-based solution for managing students, courses, enrollments and instructors.

The system organizes academic enrollment activities using Salesforce objects, automation, approval processes, reports and dashboards. It reduces manual record management and provides an efficient way to manage enrollment-related information
